Dr. Brian D. Hodges
EVP and Chief Medical Officer
brian.hodges@uhn.ca

Dr. Michael Baker
Michael.Baker@uhn.ca

Dear Drs. Smith, Hodges and Baker!

Dr. Baker informed us in May that the review of quality of care with respect to the clinical outcomes we reported in our recent PlosOne paper would take place in June 2019. We have heard nothing more about this important review. We now discover Dr. Baker is on holidays. Please let us know the status and details arranged for the intended clinical review of the Iron Overload Clinic.

You will remember that Dr. Baker was having difficulty to find any experts who were not conflicted. We presume that some progress has been made to find un-conflicted reviewer(s)?

Yours sincerely,

A handwritten signature in cursive script that reads "Brenda L. Gallie".

Brenda L. Gallie, MD, FRCSC, CM, OOnt
Head, Retinoblastoma Programs,
Hospital for Sick Children and Alberta Children's Hospital
Associate Scientist, TECHNA Institute, UHN
